CHANGES TO PLAYING COSTS

Swindon Pickleball Club operates as a Community Interest Company (CIC), which means we invest any profits back into the Club, for the benefit of our Pickleball community. Our surplus funds are primarily allocated to purchasing essential equipment such as nets, balls, paddles etc. Rising venue costs however, have resulted in the Club subsidising many of our playing sessions. As a result, we are compelled to review our playing charges, as we are failing to breakeven on most of our sessions.

With effect from 1st July 2025, we will have to increase our playing charges to:

Members £6.00 per session

Non-members £8.50 per session

Even after this increase, members will still enjoy the lowest prices in the area.

We hope everyone will be supportive of the above changes.

Happy Pickling!
